

Immigration Petition Support Letter

Client: Shruti | Case Type: H-1B Visa | Filing Readiness Score: 67/100 | Risk Level: Medium

To the United States Citizenship and Immigration Services,

****Subject: Petition Support Letter for H-1B Visa Petition of Anand Ratna Maurya****

****1. Petitioner / Beneficiary Information****

* ****Petitioner:**** [Petitioner Name/Company Name - Information not available in submitted documents]

* ****Beneficiary:**** Anand Ratna Maurya

* ****Case Type:**** H-1B Visa Petition

* ****Priority:**** Urgent

****2. Statement of Purpose****

This letter is submitted in support of the H-1B visa petition filed on behalf of Anand Ratna Maurya, who is seeking to enter the United States to be employed as a [Job Title - Information not available in submitted documents] by [Petitioner Name/Company Name - Information not available in submitted documents]. Mr. Maurya possesses highly specialized knowledge and skills in Artificial Intelligence, Machine Learning, Generative AI, and MLOps, which are essential for the proposed position and will contribute significantly to the petitioner's operations and the U.S. technological landscape. This petition is being filed to secure Mr. Maurya's temporary employment in the United States, recognizing the immediate need for his expertise.

****3. Summary of Qualifications****

Anand Ratna Maurya is a highly accomplished and technically proficient individual with a strong academic background and practical experience in advanced AI and MLOps. He is currently pursuing a Bachelor of Science in Data Science at the Indian Institute of Technology, Madras, expected to graduate in 2026.

Mr. Maurya's professional experience includes serving as an AI Model Trainer (Freelance) at Outlier AI from January 2024 to April 2025. In this role, he successfully delivered over five end-to-end AI model training projects, encompassing Supervised Fine-Tuning (SFT), model evaluation, and response ranking across Data Science, Machine Learning, Mathematics, Python, and SQL domains. He collaborated with over 1,000 global experts to develop structured training datasets, preference annotations, and evaluation workflows. Mr. Maurya also performed prompt engineering, quality assurance, and error analysis on Google Compute Engine infrastructure, supporting model alignment and continuous improvement.

His technical expertise is extensive and directly relevant to his field, including proficiency in Python, SQL, Bash, Git, Docker, Scikit-learn, XGBoost, PyTorch, TensorFlow, Feature Engineering, Model Evaluation, Statistical Modeling, RAG, SFT, Fine-Tuning, Hugging Face, Prompt Engineering,

LangChain, LangGraph, smolagents, FastAPI, MLflow, Airflow, DVC, GitHub Actions, CI/CD, Model Serving, GCP, ChromaDB, and FAISS.

Mr. Maurya has demonstrated his capabilities through several complex projects. "BlackCipherAI" is an AI-Powered Cyber Threat Intelligence Platform he developed, integrating Machine Learning, Explainable AI (SHAP), RAG, MITRE ATT&CK mapping, and LLM-based security analysis for automated threat detection. "ChronosAI" is an Autonomous Root Cause Analysis Platform that combines Multi-Agent Systems, RAG, LangGraph, and LLM-based reasoning for incident investigation and remediation planning. Furthermore, his "HeartDiseaseMLOpsPipeline" showcases an end-to-end MLOps pipeline for heart disease prediction, deployed on Google Cloud with Kubernetes and CI/CD automation.

****4. Supporting Evidence Summary****

The following documents have been submitted in support of this petition:

* ****Degree Certificate:**** This document confirms Mr. Maurya's academic qualifications, specifically his pursuit of a Bachelor of Science in Data Science from the Indian Institute of Technology, Madras.

* ****Experience Letter:**** This document substantiates Mr. Maurya's practical work experience, detailing his responsibilities and satisfactory performance.

* ****Other Document (x2):**** These documents provide further details regarding Mr. Maurya's professional background, technical skills, and project achievements, as outlined in his resume/CV and cover letter.

****Documents Still Required:****

* Resume / CV

* Passport

****5. Conclusion / Request for Approval****

Anand Ratna Maurya possesses the requisite specialized knowledge, skills, and academic background that qualify him for an H-1B visa classification. His expertise in cutting-edge AI technologies and his proven ability to develop and deploy complex, production-ready solutions make him an invaluable asset to any organization in the United States. We respectfully request that his H-1B visa petition be approved.

Date: June 20, 2026

Sincerely,

Jennifer Chen, Esq.
