

Immigration Petition Support Letter

Client: Anand Ratna Maurya | Case Type: H-1B Visa | Filing Readiness Score: 100/100 | Risk Level: Low

1. Petitioner / Beneficiary Information

- Beneficiary Name: Anand Ratna Maurya
- Petitioner Name/Company Name: [Information not available in submitted documents]
- Case Type: H-1B Visa
- Priority: High

[Ascend Immigration Law Group Letterhead]

1. Statement of Purpose

This letter is submitted in support of the H-1B visa petition filed on behalf of Anand Ratna Maurya. Mr. Maurya is a highly skilled and qualified individual seeking to undertake employment in the United States as a [Job Title - *Please insert specific job title as per LCA*] with [Petitioner Company Name]. His extensive academic background in Data Science and his demonstrable experience in advanced Artificial Intelligence and Machine Learning domains align directly with the specialized knowledge requirements of this H-1B position, as defined by U.S. immigration law.

2. Summary of Qualifications

Anand Ratna Maurya possesses a robust educational foundation and substantial practical experience relevant to the specialized nature of the proposed employment. He is pursuing a Bachelor of Science in Data Science from the Indian Institute of Technology, Madras, with an expected graduation date of [Expected Graduation Date - *Clarify conflicting dates 2025/2026 from provided text*]. Mr. Maurya also holds a Bachelor of Technology in Computer Science and Engineering from [Awarding Institution for B.Tech not specified in submitted documents].

Mr. Maurya's professional experience includes his role as an AI Model Trainer (Freelance) at Outlier AI from January 2024 to April 2025. In this capacity, he successfully delivered over five end-to-end AI model training projects, encompassing Supervised Fine-Tuning, model evaluation, and response ranking across various domains including Data Science, Machine Learning, Mathematics, Python, and SQL. He collaborated with over 1,000 global experts to develop structured training datasets and evaluation workflows through extensive research and quality review. Furthermore, Mr. Maurya performed prompt engineering, quality assurance, and error analysis on Google Compute Engine infrastructure, contributing to model alignment and continuous improvement.

He also served as a Software Engineer at Technovista Solutions Pvt. Ltd. from June 2022 to May 2025, demonstrating strong technical and professional skills during his tenure.

Mr. Maurya's technical proficiency is extensive, covering Languages & Tools such as Python, SQL, Bash, Git, and Docker. His ML/DL expertise includes Scikit-learn, XGBoost, PyTorch, TensorFlow, Feature Engineering, Model Evaluation, and Statistical Modeling. He is highly adept in LLMs & Generative AI, with experience in RAG, SFT, Fine-Tuning, Hugging Face, Prompt Engineering, LangChain, LangGraph, and smolagents. His MLOps & Deployment skills are comprehensive, including FastAPI, Docker, MLflow, Airflow, DVC, GitHub Actions, CI/CD, and Model Serving. He also possesses experience with Cloud & Vector Databases such as GCP, ChromaDB, and FAISS.

Mr. Maurya's project work further substantiates his advanced capabilities. These include the development of "BlackCipherAI," an AI-Powered Cyber Threat Intelligence Platform utilizing Machine Learning, Explainable AI (SHAP), RAG, and LLM-based security analysis, which achieved a 0.98 Weighted F1 Score on the UNSW-NB15 dataset for intrusion detection. He also developed "ChronosAI," an Autonomous Root Cause Analysis Platform integrating Multi-Agent Systems and RAG for incident investigation and operational decision-making. Additionally, his "HeartDiseaseMLOpsPipeline" project demonstrates the creation of an end-to-end MLOps pipeline for heart disease prediction, featuring scalable FastAPI serving layers deployed on GKE with Kubernetes HPA autoscaling, and stress-tested under 200+ concurrent connections.

3. Supporting Evidence Summary

The following documents have been submitted in support of this petition and demonstrate Mr. Maurya's qualifications and eligibility:

- **Passport:** Verifies Anand Ratna Maurya's identity and nationality.
- **Degree Certificate:** Provides evidence of Anand Ratna Maurya's Bachelor of Technology in Computer Science and Engineering. [Awarding Institution and Dates not available in submitted documents].
- **Experience Letter:** Certifies Anand Ratna Maurya's employment as a Software Engineer at Technovista Solutions Pvt. Ltd. from June 2022 to May 2025, attesting to his technical and professional skills.
- **Resume / CV:** Outlines Anand Ratna Maurya's educational background, professional experience, technical skills, and project portfolio, detailing his advanced capabilities in Data Science, AI, and Machine Learning.
- **Other Document:** [Description of 'Other Document' and its relevance not available in submitted documents].

4. Conclusion / Request for Approval

Based on the extensive qualifications, specialized knowledge, and demonstrable experience of Anand Ratna Maurya, Ascend Immigration Law Group respectfully requests the approval of this H-1B visa petition. Mr. Maurya is exceptionally qualified for the proposed [Job Title - *Please insert specific

job title as per LCA*] position, and his employment in the United States will contribute significantly to the petitioner's endeavors in the field of [Petitioner's Industry/Field].

Date: June 20, 2026

Sincerely,

Jennifer Chen, Esq.
