Dear Hiring Manager,

I am writing to express my interest in opportunities within Artificial Intelligence, Machine Learning, Generative AI, and MLOps that offer H-1B visa sponsorship. I am currently pursuing a Bachelor of Science in Data Science from IIT Madras and have practical experience building end-to-end AI systems, machine learning pipelines, and production-ready applications.

My professional experience includes working as an AI Model Trainer, where I contributed to supervised fine-tuning, model evaluation, prompt engineering, response ranking, and quality assurance for large language models. I collaborated with global teams to create high-quality training datasets and improve AI system performance across domains including Data Science, Machine Learning, Mathematics, Python, and SQL.

In addition to my professional experience, I have developed several advanced AI and MLOps projects. These include an AI-powered Cyber Threat Intelligence Platform that combines machine learning, explainable AI, retrieval-augmented generation (RAG), and LLM-based security analysis; an Autonomous Root Cause Analysis Platform utilizing multi-agent systems and LangGraph workflows; and a production-grade MLOps pipeline deployed on Google Cloud with Kubernetes, CI/CD automation, model monitoring, and explainability features.

My technical expertise includes Python, SQL, FastAPI, Docker, Kubernetes, GitHub Actions, MLflow, Airflow, LangChain, LangGraph, Hugging Face, FAISS, ChromaDB, TensorFlow, PyTorch, and Google Cloud Platform. I enjoy solving complex problems, building scalable AI solutions, and translating innovative ideas into practical applications.

I am eager to contribute my skills and experience to an organization that values innovation, continuous learning, and technical excellence. I would welcome the opportunity to discuss how my background can support your team's objectives and how I can add value to your organization.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Anand Ratna Maurya
